## Use-Case Specification: Member Login

### 1. Admin Login

#### 1.1. Brief Description

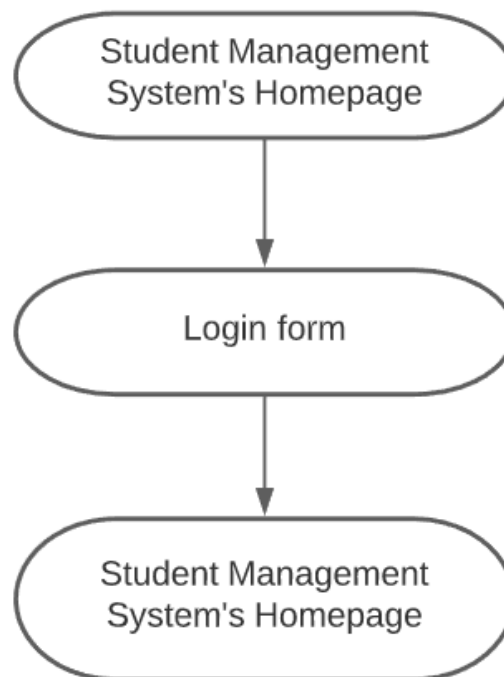

This use-case defines the steps of logging in to the system as an admin. Admin can easily login by entering his username and password.

#### 1.2. Actor

Administrator.

### 2. Flow of Events

User clicks the login button on student management's home page. Then a login form appears, user fills in that form with his username and password. After that, admin clicks the login button. Eventually, the system redirects to the home page.

*Basic flow of Member Login*

Student Management System	Version 1.0

### **3. Special Requirements**

#### **3.1. Validate Username and Password**

Admin must enter valid username and password.

#### **3.2. Forgot Username and/or Password**

The system should have a function to support admin in case of forgetting username and/or password

### **4. Preconditions**

Admin must already have a Student Management System admin's account.

### **5. Postconditions**

No postconditions.

### **6. Extension Points**

Personal information security should be considered.
